Heather to Guthrie.

Dr. Duke, state commissioner of
health, stated that he would remove
his offices to Guthrie shortly after
the final adjournment of the legisla-
ture. When Dr. Duke was given the
office it was with the understanding
that the state office would be removed
to Guthrie. The office of assist-
ant commissioner, created by the
present legislature, will not be filled
in all probability until the end of the
fiscal year. The commissioner said
the assistant must be a bacteriologist,
an analytical chemist and a business

onto' him then and there. I think now
that I will not make the appointment

band has traced her through the oil
fields and learned that she came to

been unable to locate her. "I al-
ways treated her right and we were
apparently happy. I am certain there
is no man connected with the affair;
I am afraid that she is temporarily
unbalanced he said."

Mrs. Goleserio is 25 years old, and
good looking, the husband says. She
had plenty of money when she left

JO. THOMPSON HAS NO CHIPS IN GAME, SAYS

GUTHRIE POSTOFFICE SITU-
ATION IN STATUS QUO
WITH WIRES CROSSED

"I have no chips in the Guthrie
postoffice game," says Congressman
J. B. Thompson. "I've had my say
and I have nothing more to say."
The Guthrie postoffice matter is
outside of the senators' hands now;
it is up to the district con-
gressman and Postmaster General
Burleson," says Senator Gore. "I
shall appoint James Lewis on the
recommendation of Congressman
Thompson," says General Burleson.
The charges against Mr. Derwin
were disproven, but the antagonism
of Mr. Owen to Derwin makes it ex-
pedient to name another man.

Tom Jenkins and Van Hoozer are
late entrants in the P. O. game.

ASKS DIVORCE ON HER WEDDING ANNIVERSARY

On March 12, 1910, Augusta Green-
leaf, a pretty country girl, whose
home was on a farm near Navina
was led to the altar by Lewis Hulme
a young contractor of this city. The
wedded life of the Hulmes was not
happy. Trouble began shortly after
the honeymoon and in 1913 the hus-
band deserted the wife and has since
remained away. The wife avers in
her petition that she did everything a
good wife should do to make her
husband happy, but he would none
of it.

Just five years to a day, March 19,
the anniversary of their wedding, the
petition for divorce was filed. The
couple have a 4-year old daughter,
Rosemary, whom the mother petitions
the court to give into her keeping.
She also asks for a division of prop-
erty, attorney's fees, costs and a
monthly alimony of \$20.

HAULING AUSTRIAN SIEGE GUNS TO LOWICZ, POLAND.

This photograph of Austrian siege
guns on the way to bombard Lowicz,
Poland, was taken when they were
on their way over the heavy roads.
It is the gun with which the forts at
Liege, Belgium, were subdued in the
beginning of the war. In fact, it is
the greatest gun used in the war
with the exception of the German
forty-two centimetre. The scene
shows what Poland, torn more by the
war than any other part of Europe,
is undergoing. Three times the Rus-
sian and German and Austrian armies
have fought across Poland, until there
is little left, and it is said 3,000,000
people are on the verge of starvation.

kish official says the French battle-
ship Bouvet was sunk by the fire
from the forts at the Dardanelles,
while a Turkish fleet attacked the
Odoshla, the Russian naval base on
the Crimean coast, setting the build-
ings afire.

The Bouvet had 12 thousand tons
displacement and a complement of
621 men. Her armament was two
twelve inch, two ten and one eight
inch guns. Also, eight five and one-
half inch guns and twenty-eight
smaller ones besides carrying two
torpedo tubes.

Steamer Hyndford Disabled.

Glasgow, March 19.—The British
steamer Hyndford was torpedoed in
the English channel today by a Ger-
man submarine. One sailor is re-
ported killed.

Unrest in India.

Delhi, India, March 19.—The unrest
in India is described by Sir Reginald
Craddock, a member of the Viceroy's
Council, who has urged the governor
general's council to give the mili-
tary authorities special powers to
act in emergencies, to prevent up-
risings. He pointed to recent vio-
lence in Bengal and the racial con-
flicts between Hindus and Moham-
medans in western Punjab. Many
atrocities have been reported recent-
ly from the interior.

Attack Fortress in Straits.

Berlin, March 19.—A squadron of
six British and four French battle-
ships at half past seven o'clock this
morning attacked the three fortresses
of the Dardanelles. At the same
time another squadron of the Allied
fleets commenced operations against
the three fortresses in Saros Bay.
After a fierce artillery duel the hos-
tile ships withdrew at two in the af-
ternoon.

REMEY SAYS HARTSHORNE CASE IS VERY DEAD

Judge Remy, of Guthrie with Mo-
man Pruett, of Oklahoma City, were
attorneys for Eugene Hartshorne in
the case wherein Mrs. Emma Hart-
shorne sued her husband for a divorce
and a division of property, which she
estimated is worth \$100,000. Mrs.
Hartshorne lost her case and also
had to dig up \$500 attorney's fees.
Hartshorne had filed a cross bill. He
admitted owning \$50,000 in property.
"The case is very dead," said Remy.

OIL FUND IS GROWING; MORE WIRES NEEDED

15 BOOSTERS APPEAR IN
BEHALF OF GUTHRIE;
HELP NEEDED

The committee of business men so-
liciting fifty dollar subscriptions for
the fund to drill the Carter oil and
gas well to a depth of three thou-
sand feet are at work again this af-
ternoon doing their utmost to push
the matter so the work of complet-
ing the well can go on without inter-
ruption.

The report made at the meeting of
the stockholders and citizens Mon-
day evening showing the total re-
ceipts from all sources to the oil well
fund to have been a little over fif-
teen thousand dollars, which includes
a total of \$2,535 worth of stock sold
by C. E. Cresser.

Of this amount \$7,500 was paid for
machinery and casing, \$3,700 for la-
bor in drilling the well and the bal-
ance for fuel, lumber, derrick, leas-
ing expenses for securing 8,000 acres
of leases, repairs on machinery, etc.
The machinery, casing, derrick, etc.,
are worth fully ten thousand dollars
and could be disposed of for enough
to return all stockholders about fifty
per cent of the amount they have
paid in.

In the case of the new fund of \$5,-
000 now being subscribed, a large
portion of the amount will be used
for casing and when the well is fi-
nally completed, if it should happen
that no gas or oil is found, which is
not at all probable, this casing could
be sold with the other machinery and
there would be a rebate to every
man of fully fifty per cent. It can
therefore be readily seen that no
contributor to the fund is risking
more than half of the amount he puts
in, the latter of the presence of oil
or gas in Logan county will be set-
tled with the chances strongly in fa-
vor of an oil or gas field being devel-
oped which will return every man his
money ten fold and bring a business
revival here that will benefit every
citizen of the county.

Up to last night forty-five men had
signed up on the fifty dollar list—
fifty more are wanted and needed.
Who will be the first to volunteer.
The forty-five are as follows:

FIRST DAY OF CLEAN- UP CRUSADE SUCCESS

WHOLE TOWN RESPONDS TO
CALL OF WOMEN FOR A
"GUTHRIE BEAUTIFUL."

The clean-up committee met with
gratifying success today. School
children, women of the clubs, the
Young Men's Booster club and citi-
zens generally responded to the call.
Said Miss Florence Adler, president
of the City Federation of Clubs:
"Never before in the history of Guth-
rie have the alleys and back yards
presented the same clean appearance
as they do today. We certainly are
well pleased over the results. The
next thing is to see that the premises
are kept clean."

All day long, since early morning,
the wagons carrying the rubbish have
been constantly moving. It is esti-
mated that 100 wagon loads of dirt
was removed up to the noon hour.
Students at the Methodist univer-
sity are busy transforming the
grounds, long neglected, into a beau-
tiful, well ordered campus. The en-
thusiasm of the clean-up campaign
has seemingly permeated the air;
everybody has joined the movement
and a "Guthrie Beautiful" will result.

CLEAN-UP NOTES.

The Banner school boys are doing
valiant work under the direction of
Mrs. Hene on the west side.

On the east side Lieut. Mitchell has
a squad from Capitol Hill school and
is accomplishing wonders in the
south part of town.

The Central school division with
Mrs. Sopher and E. E. Parsons, are
working energetically and doing good
work.

The members of the civic com-
tee have been out all morning investi-
gating and reporting. One of the
ladies was heard to say that some of
the oldest settlers are the most care-
less about their back yards and alleys.

Tomorrow will begin the second
clean-up day; wagons will be used to
gather trash all next week.

Don't think you will be overlooked.
Get busy.

The clean-up campaign was a big
success.

Two hundred boys contested with
one another today in collecting tin
cans. The scramble was exciting and
the harvest big. Ten cans admitted
one boy to the Gem show.

"CANNED."

The Gem theater was canned in a
good shape Friday afternoon. Some-
thing less than one million cans were
dumped in front of the theater.

EAT LESS FOOD; YOU WILL HAVE MORE CLOTHES

Albany, N. Y. March 19.—Living
on \$8 a week in New York City is a
very simple problem. Miss Dorothy
Miller, 19-year-old shop girl, told a
legislative committee investigating
the minimum wage proposition today.
If one wants more clothing she ex-
plained it is only necessary to eat
less food. And if more food is wanted,
skimp on the clothes allowance.

GERMANY WILL HURL NEW ARMY INTO BREACH

TO KEEP HER ARMIES NOW
IN THE EAST AND
WEST, INTACT

ARTILLERY BATTLE
RAGING ON VISTULA

VON HINDENBURG TO MAKE
ANOTHER ATTEMPT TO
REACH WARSAW

(By Associated Press.)

London, March 19.—The apparent
failure of Field Marshal Von Hin-
denburg's various attempts to reach
Warsaw, the reappearance of the
Russians over the East Prussian fron-
tier, near Tilsit, and the allied of-
fensive in the west, has according to
British observers, put Germany in a
position where she dare not shift any
substantial force from either the east
or the west.

Although there are rumors rise of
reinforcements being hurried from
Poland to France to meet the French
and British thrusts, military writers
hold that Germany must maintain
the present armies in both areas,
fighting intact. This will necessitate
the finding of new forces for both
the east and west, if she would ef-
fectually meet the increasing strength
of the enemies.

Petrograd believes that Von Hin-
denburg has decided to launch a new
attack on Warsaw from the West.
Russian military authorities declare
that the Germans have abandoned
the attack in the north and are con-
centrating their forces south of the
Vistula, where heavy artillery fight-
ing is now under way.

Russian Attacks Repulsed.

Berlin, March 19.—Minor Russian
detachments have entered the Mem-
el fortified Baltic port. All of the
Russian attacks between Pissa and
the Orzye rivers northeast of Przas-
nysk have been repulsed. The enemy
have lost heavily.

Austrians Reinforced.

London, March 19.—The Austrians
have been reinforced and have re-
sumed a strong offensive in Buko-
wina, says a Times, Bucharest dis-
patch.

Wants Results to Show First.

Rome, March 19.—A Tribune, Vi-
enna dispatch says that Austria, it
she agree to make the territorial
concessions to satisfy Italy, will not
transfer the territory until after the
war. It is said that Austria wants
to be sure that Italy will adhere to
her promise. Her neutrality attitude
is described as very unsatisfactory to
Italy.

File Suit on Note.

A suit for recovery of money on

trict court today by M. M. Harnel
directed against Clara A. Hulse.
